

Prepared From Path Lesson

School: Lectio P09 Live School

Teacher: P09 Teacher

Date: 8 September 2026

Student Name: _____

Table of Contents

1. Make the learner feel the need for a method by facing a total they cannot get from one memorised
2. Build the procedure: split the two-digit factor into tens and ones, multiply each part by the one-digit
3. Let the learner see the boundary of the method by contrasting it with two similar-looking shortcuts
4. Check whether the learner can decompose a two-digit factor into tens and ones and state the two
